## A BILL

To improve the economy and efficiency of Government operations by requiring the use of recovery audits by Federal agencies.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

3       **SECTION 1. SHORT TITLE.**

4       *This Act may be cited as the “Government Waste Cor-*  
5       *rections Act of 1999”.*

6       **SEC. 2. FINDINGS AND PURPOSES.**

7       *(a) FINDINGS.—The Congress finds the following:*

8               *(1) Overpayments are a serious problem for Fed-*  
9               *eral agencies, given the magnitude and complexity of*  
10              *Federal operations and documented and widespread*  
11              *financial management weaknesses. Federal agency*  
12              *overpayments waste tax dollars and detract from the*  
13              *efficiency and effectiveness of Federal operations by*  
14              *diverting resources from their intended uses.*

15              *(2) In private industry, overpayments to pro-*  
16              *viders of goods and services occur for a variety of rea-*  
17              *sons, including duplicate payments, pricing errors,*  
18              *and missed cash discounts, rebates, or other allow-*  
19              *ances. The identification and recovery of such over-*  
20              *payments, commonly referred to as “recovery audit-*  
21              *ing and activity”, is an established private sector*  
22              *business practice with demonstrated large financial*  
23              *returns. On average, recovery auditing and activity*  
24              *in the private sector identify overpayment rates of 0.1*  
25              *percent of purchases audited and result in the recov-*

1        *ery of \$1,000,000 for each \$1,000,000,000 of pur-*  
2        *chases.*

3            *(3) Recovery auditing and recovery activity al-*  
4        *ready have been employed successfully in limited*  
5        *areas of Federal activity. They have great potential*  
6        *for expansion to many other Federal agencies and ac-*  
7        *tivities, thereby resulting in the recovery of substan-*  
8        *tial amounts of overpayments annually. Limited re-*  
9        *covery audits conducted by private contractors to date*  
10       *within the Department of Defense have identified er-*  
11       *rors averaging 0.4 percent of Federal payments au-*  
12       *dited, or \$4,000,000 for every \$1,000,000,000 of pay-*  
13       *ments. If fully implemented within the Federal Gov-*  
14       *ernment, recovery auditing and recovery activity have*  
15       *the potential to recover billions of dollars in Federal*  
16       *overpayments annually.*

17       *(b) PURPOSES.—The purposes of this Act are the fol-*  
18       *lowing:*

19            *(1) To ensure that overpayments made by the*  
20        *Federal Government that would otherwise remain un-*  
21        *detected are identified and recovered.*

22            *(2) To require the use of recovery audit and re-*  
23        *covery activity by Federal agencies.*

24            *(3) To provide incentives and resources to im-*  
25        *prove Federal management practices with the goal of*

1       *significantly reducing Federal overpayment rates and*  
 2       *other waste and error in Federal programs.*

3   **SEC. 3. ESTABLISHMENT OF RECOVERY AUDIT REQUIRE-**  
 4       **MENT.**

5       *(a) ESTABLISHMENT OF REQUIREMENT.—Chapter 35*
